

# Appendix K - Beta I and Beta II PMO Security Certification Letter for Intelligence Mission Applications (IMAs)

MEMORANDUM FOR: Program Management Office/System  
Attn: Organization/Division (Person)  
Mailing Address

FROM: Certifying Authority

SUBJECT: BETA I or BETA II Security Certification for the (System Tested),  
Version (Version Number)

Reference: a. DIA Manual 50-4, 30 April 1997, "Department of Defense (DoD) Intelligence Information System (DoDIIS) Information Systems Security (INFOSEC) Program."

b. DCID 6/3, 5 June 1999, "Protecting Sensitive Compartmented Information within Information Systems."

c. DoDIIS Certification and Accreditation Guide, April 2001

d. Joint DoDIIS/Cryptologic SCI Information Systems Security Standards, 31 March 2001

1. The (*System Name*) IMA Version (*Version Number*) BETA (**I** or **II**) security certification test was executed under the direction of (*Certifying Authority*) at (**the Joint Integraton Test Facility (JITF), Rome, NY, or Site Location**) on (*Date*). The results of the tests demonstrated conformance to minimum computer security requirements as defined in references a. through d. for processing Top Secret, Sensitive Compartmented Information (SCI) as a (*defined Protection Level*) system. (*Enter Discrepancies if any.*) No major discrepancies were noted during the test. Minor discrepancies are provided in the enclosure.

2. Based on the favorable results of the BETA (**I** or **II**) security test, (*Certifying Authority*) recommends that the DoDIIS Management Board (DMB) approve (*System Name*) IMA Version (*Version Number*) to be deployed (**to BETA II sites for installation and certification testing, or operationally**).

3. The Information Assurance or INFOSEC Action officer is [*Action Officer name*]. This Action Officer can be reached at DSN [*xxx-xxxx*], or Commercial [*(xxx) xxx-xx*].
